

MISSING LINK

California Coastal

You've evolved as a wine drinker. You're past monkeying around with entry level wines, but you're not about to go ape over those insanely expensive "cult" wines either. Well, stand up straight and stop dragging those knuckles because you've just discovered the missing link between lightweight, wimpy Zins and those over the top, enamel-stripping bruisers. Missing Link Zinfandel; a wine so rich, supple and exotically flavored, you'll be glad you've got opposable thumbs.
